HIGHTECH AND CRAFTSMANSHIP

For increased individuality:

RECARO fosters the right to uncompromising individuality – make a good product even better now.

Your perfect seating experience depends on various fundamental pre-conditions: Choose the right backrest height and seat width as well as the seat height and firmness that are most comfortable for you. A matching ottoman is offered, including a tilt mechanism for increased comfort when relaxing.

In order to create the matching look, we offer high-quality textile upholstery materials, microfibres and leather types in a wide range of colours – even combinations are possible. For example, the backrest shell of some models can be produced in a sporty carbon look or in fine leather. The lower frame is available in three attractive designs.

For increased pleasure:

RECARO is genuine German craftsmanship. Each individual order is manufactured individually and according to the customer's requirements. RECARO Relax furniture is durable and reliable. The selection of finest materials, tests and continuous inspections in our in-house testing laboratories and strictest quality controls provide safety and ensure that the furniture displaying the RAL quality label of German furniture manufacturers (Deutsche Gütegemeinschaft Möbel e.V.) complies with all requirements. A consistently high quality standard in production is a decisive principle.

RECARO seating furniture represents a success story made in Germany:
